Furthermore, the conflict between Russia and Ukraine that started on 2014 concerning certain parts of eastern Ukraine expanded in February 2022 to Russia’s military attack on Ukraine, which causes significant risks and uncertainties to the markets affecting the entire global economic environment and financial markets.

- (2) The following text is inserted to the end of the second paragraph of the section entitled “*Risk Factors – Risks Related to the Combined Company’s Operating Environment – Geopolitical tensions, trade barriers and sanctions, political uncertainty and uncertain global economic and financial market conditions could adversely affect the Combined Company’s business, financial position, results of operations and prospects*” on page 16 of the Merger Prospectus:

Should the additional sanctions, imposed on Russia from February 2022 or the counter-sanctions imposed by Russia, result in economic sanctions imposed on Neles’ or Valmet’s customers, suppliers, their owners or customer industries, or a total or partial disruption of payment transactions between Neles or Valmet and their customers or suppliers, or if Neles’ or Valmet’s products were subject to export restrictions and the business could not adapt to the changed circumstances, this would complicate Neles’ and Valmet’s business operations in Russia and decrease sales.
